**Foreign Transactions Reminder\*\***

If you effect a transaction with your Debit MasterCard®, ATM card or your MasterCard® or Visa® Credit card in a currency other than U.S. dollars or effect a transaction in U.S. dollars outside the United States, MasterCard International Incorporated or Visa as applicable (“Card Association”) will convert the transaction into a U.S. dollar amount. A currency conversion will occur even if the transaction is made in U.S. dollars. Card Associations will act in accordance with the operating regulations or foreign currency conversion procedures then in effect. Currently the currency conversion rate used to determine the transaction amount in U.S. dollars for such transactions is either a government- mandated rate or a wholesale rate determined by Card Associations for the processing cycle in which the transactions is processed. The transaction amount is further increased by a percentage established from time to time by us (currently 3%). The currency conversion rate used by Card Associations on the processing date may differ from the rate that would have been used on the transaction date or cardholder statement posting date.

\*\* Foreign Transaction charges do not apply to Premier credit or debit cards.
