

## HSBC – Travel Plans video transcript

### **Super: Your dream trip: How will you get there?**

My dream trip is  
Bali  
Japan  
Southeast Asia  
North Carolina  
Road trip across the United States in a camper van

I don't know what film I was watching and they were in Bali and the beaches were beautiful and I was like, "I gotta go there."

I'm picturing a lot of mountains and deserts and ocean sides.

My old roommate went to business school, so for the summer before business school that's all she did, she just did a bunch of travel and she did a big chunk in Southeast Asia and all of her pictures were really dope.

I think I'd want to line up my trip with the spring which is a very culturally important time for the Japanese. It's when the cherry blossoms emerge and it has a religious, spiritual connotation.

### **Super: How much will it cost?**

Flights are at least going to be a grand to fifteen hundred.  
You need gas, you need ... transportation.  
Airfare. Accommodations. Food.

It would cost about 5k.  
Five thousand dollars.  
Two thousand dollars, give or take.

### **Super: How do you save?**

Take a little bit of money out of my paycheck every month.

See who has the deal best on travel miles.

I have an app on my phone that takes out money from my bank account and puts it towards a goal.

### **Super: Why do you save?**

My biggest goal in life is to see all that I can so saving for that is my first priority.

Exploring the world outside the one that you know is kind of essential.

It's never too early to start saving.
