

ELECTRONIC BANKING SERVICES INFORMATION STATEMENT

This Statement summarizes certain rights and responsibilities which you (our customer) and HSBC Bank USA, N.A. (we or the Bank) have under the Electronic Fund Transfer Act. It applies when you use our Electronic Banking Services.

“Electronic Banking Service” (or EFT Service) means a banking service in which you or someone else uses electronic means to make deposits (credits) to or withdrawals (debits) from your checking, savings, or CD account. It also includes a purchase or “purchase and cash back” transaction at a retail store using your HSBC Debit Mastercard® card (“Debit Mastercard®”), even if the debit to your checking account is not made by electronic means until later. These transactions are collectively referred to in this Statement as “EFT transactions.”

An EFT transaction is made by electronic means when, for instance, it is made at an Automated Teller Machine (ATM) such as a Bank ATM, by using Online Banking Services, Automated Clearing House (ACH), or in some cases, by telephone.

EFT transactions also occur when there is an electronic check conversion, a merchant (or their agent) sends through an electronic debit for the amount of a returned check plus a fee, and a qualifying computer initiated bill payment. A computer initiated bill payment is not an EFT transaction where the bill payment service expressly provides that payment will be made to all or particular payees with a written instrument drawn on your account and all payees that will be paid in this manner are identified to you.

Credit transactions (for example, obtaining a loan or making a credit card purchase or cash advance) do NOT involve EFT Services. The kinds of EFT Services covered by this Statement and the terms that apply to each are set forth below.

EFT CARD SERVICE

KINDS OF EFT TRANSACTIONS

You may use a properly encoded Debit Mastercard® or ATM card (the Card) plus your Personal Identification Number (PIN) at any EFT Facility (e.g., ATM, such as a Bank ATM, point-of-sale terminal or other electronic facility) that accepts the Card OR you may use a Telephone Access Code (TAC), a Card PIN or Voice ID with our Automated Telephone Banking service to do one or more of the following:

- Withdraw cash from your checking or savings account;
- Make a Bank payment (pay bills you receive from the Bank from your Bank checking account);
- Make deposits to your checking or savings account;
- Transfer funds between your checking, savings and Certificate of Deposit accounts.

Some of these services may not be available at all EFT Facilities.

You may use a properly encoded Card (plus your PIN, if required) at a retail store that accepts the Card to pay for goods or services (or to pay and also get cash back) from your checking account.

You may also perform balance inquiries on checking and savings accounts at some EFT Facilities. These transactions are not EFT transactions and are not subject to these rules.

Except for Automated Telephone Banking, you may use the Card and PIN for EFT transactions only with the accounts you requested be linked to the Card. You may not use them for EFT transactions involving other deposit accounts.

ELECTRONIC CHECK CONVERSION

You may authorize a merchant or other payee to make a one-time electronic payment from your checking account using information from your check to:

- Pay for purchases
- Pay bills

LIABILITY FOR USE

You are responsible for any EFT transaction you make with the Card. You are also responsible for any EFT transaction made by someone else to whom you have given your Card or PIN until you notify us that the person no longer has your permission to use them.

Tell us AT ONCE if you believe your Card, PIN or TAC has been lost or stolen, or if you believe that an electronic fund transfer has been made without your permission using information from your check or other information about your account. Telephoning is the best way of keeping your possible losses down. You could lose all the money in your account (plus your maximum overdraft line of credit). Also, if your monthly statement shows EFT transactions made with your Card or PIN that you did not make (or give someone permission to make for you), tell us AT ONCE. If you do not tell us within 60 days after the statement was mailed to you, you may not get back any money lost after the 60 days, if we can prove we could have stopped someone from taking the money if you had told us in time. If a good reason (such as a long trip or a hospital stay) kept you from telling us, we will extend the time periods.

WHERE TO CALL

If you believe your Card, PIN or TAC has been lost or stolen or that someone has or may use them to withdraw money from your deposit account without your permission, telephone the number or write to the address shown on the BANK DIRECTORY for reporting lost or stolen cards, PINs or Telephone Access Codes (TAC).
